

Unit Description

fmedge UNIT: 03 Facility Planning & Management

CATEGORY: Intermediate

SUMMARY OF UNIT CONTENT:

This **fmedge** Unit covers the competencies required to implement a facilities management plan. This includes the ability to establish implementation activities and priorities, and schedule and monitor support processes to ensure effective and quality implementation processes.

The competencies include the ability to provide safe, efficient and effective services to customer satisfaction within the organisation's productivity and profitability plans. This includes working within complex and diverse methods and procedures which require the exercise of considerable discretion and judgement, using a range of problem solving and decision making strategies.

The primary learning outcomes include:

- Identify facilities management requirements
- Organise support processes
- Monitor implementation of plan
- Evaluate implementation of plan
- Plan resource use
- Acquire resources
- Monitor operational performance

This **fmedge** Unit presents the following Units of Competence which lead to qualification within the Australian Qualification Framework:

AQF Unit Code	AQF Unit Description
PRDPOD525A	Implement facilities management plan
BSBFLM505A	Manage operational plan
